Asia-Pacific Economics Association is a newly established economics association. Its mission is to promote economics research in the Asia-Pacific region, encourage interactions among economists in this region, and disseminate research results.

This conference is the first one organized by the association. It will provide a forum to economists all over the world, especially those in the Asia-Pacific region, to present their recent research findings, to get comments on their work, to interact with other economists, and to search for new research topics.

Economists are invited to submit by **January 31, 2005** a paper or an extended abstract for presentation consideration. All economics fields will be included, and both theoretical and empirical work will be considered. Please send your submission to Professor Yin-Wong Cheung, Department of Economics, University of California, Santa Cruz, CA 95064, U. S. A. e-mail address: <cheung@cats.UCSC.EDU>. Submission by e-mail will be preferred.
